ART UNIT 1651

Art Unit: 1651

The amendment of 4/30/03 canceled claims 77, 80, 81, 84, 99, 100, 102 and 103, amended claims 55, 66 and 101, and added new claims 113-118.

Claims examined on the merits are 55, 57, 66, 67, 71, 74, 75, 78, 79, 83, 86-98, 101 and 104-118 which are all claims in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 55, 57, 66, 67, 71, 74, 75, 78, 79, 83, 86-98, 101 and 104-118 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The term "antiglaucoma agent" recited in line 5 of claim 55 and line 4 of claim 66 is not recited in the specification, and adequate support for the term is not found in the specification.

Applicants refer to page 5, lines 13-14, and page 63, line 3, as providing support for the amendments to the claims. However, these sections of the specification do not recite "antiglaucoma agent".

Application/Control Number: 09/359,920
Art Unit: 1651

Page 3

Page 5, lines 13-14, recites only "anti-nerve gas or anti-neurotoxin agents". Page 63, line 3, recites "Methadone Hydrochloride; Methadyl Acetate; Methopholine;". It is uncertain as whether any of these substances is an antiglaucoma agent. In any event, the recital of a specific substance that may function as an antiglaucoma agent is not adequate support for the generic term "antiglaucoma agent" that can encompass substances substantially different from the specific substance disclosed.

The claims are free of the prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
